Warranty & Support:

This describes the warranty, license and support that Procyon will provide for the materials / system supplied.

System Warranty:

- Procyon will transfer the **manufacturer's warranty** of all products that are purchased and delivered with the system.
- The warranty period for these products will be mentioned in their original warranty certificates, which will be produced to ELIN by Procyon.
- ELIN needs to extend the warranty of these products, if needed and if the manufacturer provides the option where Procyon will assist in the process of getting the additional warranty. The additional cost would be borne by ELIN
- It has to be noted that the warranty periods for these products start from the date of dispatch from the manufacturer's site and there is a delay from that date to the date of delivery of the product along with the system to ELIN by Procyon.
- Procyon will provide warranty coverage for all other components, for which Procyon does not produce the manufacturer's original warranty certificate, for a period of **One year** from the date of delivery to ELIN.

Software Support:

- **Software Bugs:** Procyon will correct free of charge any software bugs that may arise during the course of use of the system and reported to Procyon during this warranty period.
- **System Reinstallation:** After sign-off, any time that is spent on reinstallation and revalidation of the system will be considered as additional service and billed at Rs. 1,250/hour
