GENERAL TERMS & CONDITIONS:

1. Applicability

1.1 These conditions are valid exclusively between us and the Customer in connection with our delivery of goods and other services (referred to collectively as 'deliveries'). The supplier accepts the validity of these conditions for this and future business by agreeing to the contract.

1.2 These conditions remain valid in the event that we unconditionally make deliveries and/or accept payments without objection in knowledge of contradictory terms and conditions of the Customer. Discrepancies from our terms and conditions or the business terms of the Customer are thereby ineffective and will not become a constituent part of the contract except if they are recognised wholly or partially by us in writing.

1.3 The congruent mutual written declarations apply for the scope of deliveries. The validity of oral auxiliary agreements requires our written confirmation.

2. Conclusion of Agreement

2.1 Our offers are submitted without obligation. We reserve the right to sell goods without prior notice.

2.2 Diagrams, dimensioned drawings and similar illustrations submitted with our offers are approximations only and do not oblige us in any manner. We reserve the right to make any changes that we deem necessary.

2.3 The contractual agreement is concluded when we send our written order confirmation to the Customer. It is solely authoritative for the scope and execution of the order.

2.4 The Customer shall, prior to the conclusion of the Agreement, inform us of statutory, official and any other regulations that relate in particular to the execution of delivery, the installation and assembly of the goods, their operation; to health and safety at work; to foreign-exchange controls with regard to export and/or import transactions; and in general inform us of any and all regulations that may delay or impede the permits and licences in due time, failing which the legal consequences stipulated in Sect. 13 of these present Terms shall take effect.

3. Drawings and Documents

Offers, projects and corresponding drawings, descriptions, illustrations, samples, forms and similar that we submit are our intellectual property and may not be stored electronically, copied or duplicated nor brought to the attention of third parties in any way and also may not be used for the completion of works or components without our written permission. They must be returned immediately upon request if the order is not executed.

4. Prices

4.1 Our prices are valid ex works and plus the valid statutory turnover tax. They do not include the costs of packaging, transport insurance or freight and installation, which will be invoiced separately.

4.2 Taxes, fees relating to the Agreement, stamp duties, export, import and transit duties, discount interest, customs duties and fees, official commission fees, Banking charges and similar charges shall be borne by the Customer.

4.3 Should the rate of exchange of the currency specified in the invoice change with regard to the Euro – in particular, as a result of de- or revaluation – then the purchase price shall be calculated on the basis of the rate of exchange applying on the date that the Agreement was concluded.

5. Terms of Payment

5.1 All payments shall be effected in the specified currency to the credit of our account with the bank specified in the order confirmation or invoice.

5.2 Unless otherwise agreed in writing, one half of the purchase price shall be due and payable by the Customer upon receipt of the order acknowledgement, and the other half upon notification that the goods are ready for shipment.

5.3 The date of fulfilment is the day on which the sum is available to us. We only accept payment by draft on the basis of special agreement. Credit notes against drafts or cheques are always valid subject to receipt.

5.4 In the event that the Customer is in arrears on instalment payments (crediting of the purchase price), then the entire remaining unpaid price is due (loss of term).

6. Retention of Ownership (Legal Title)

6.1 The objects in the deliveries remain our property until satisfaction of all the Customer's payment obligations resulting from our business relationship (goods subject to retention of title).

6.2 The Customer is not permitted to pledge or assign our goods that are subject to retention of title. Resale is only permitted for re-sellers in the normal course of business and only on condition that the re-seller receives payment from his customer or includes the condition that the ownership is only transferred to the customer if he or she has fulfilled his or her payment obligations. In the event of processing or connection of our goods subject to retention of title our legal title extends to the product within the framework of the statutory possibilities.

6.3 In the event of seizure, confiscation or other action by third parties the Customer must inform us of the action immediately.

6.4 If, when goods are delivered abroad, statutory laws of the country where the goods are located govern the retention of ownership, the Customer shall be obliged to take every step necessary to legally assert our retention of ownership (e.g. by attaching marks, effecting entry in public registers, or similar measures). If the laws of the country in which the delivered goods are located do not allow a retention of ownership, but does permit us thereof to reserve other rights with regard to such goods, then we shall be entitled to exercise any and all such rights. Should the Customer fail to fulfil his obligation under this clause, then we shall be entitled either to withhold undelivered goods until the Customer provides proof that he has fulfilled his obligation, or to rescind the Agreement immediately with the legal consequences stipulated in Sect. 13 of these present terms.

The reasonable nature of the extension is determined particularly by the scope of the delivery and also whether special design is required.

12.2 In the event that a partial delivery has been put to use by the Customer and if this can still be used by the Customer in principle then no withdrawal is permitted in respect to this partial delivery.

13.1.5 to declare withdrawal from the contract giving a reasonable extension and

13.1.6 to demand compensation for damage caused to us through the delay and any costs for the necessary collection measures.

13.2 In the event of withdrawal the services already provided must be reserved. The Customer must release the received deliveries to us and compensate us for the reduction in value in that time together with our costs, particularly transport costs, customs charges, fees, travelling costs, construction and administration costs etc. Costs also include expenses we had to incur for the purchase of parts of the delivery from third parties (sub-suppliers) or will still incur. The Customer will also receive the payments already made without interest and taking into account the above deductions. If special designs are involved then we can make the parts available to the Customer and demand the corresponding proportion of the purchase price for them.

14. Freight and Insurance

14.1 The Customer shall, at his own risk and expense, arrange for the transport of the goods. If the freight carrier is commissioned by us because this was agreed with the Customer then the Customer is still responsible for correct securing of the delivery during transport from one facility to the other to prevent sliding off, slipping, tipping, any mechanical action from outside and similar.
